TOP STORY

Podcasts become a tool for some teachers

(Pixabay)

Podcasts are becoming increasingly popular, and now some teachers are using the medium in academic lessons. Two Michigan educators collaborated to start podcasts where sixth-grade students interview their classmates about books they read.

Teacher: How UDL supports learning differences

(Pixabay)

Universal Design for Learning helps support individual learning differences so that every student can succeed, asserts Cheryl Mizerny, a sixth-grade English teacher. In this blog post, Mizerny explains the approach and shares how to use the concepts in a writing unit that is a favorite of her students.

Summer Learning Opportunity for Your Students

BROWN
Pre-College Programs

This summer, academically motivated students will attend Brown University Pre-College Programs to experience college life and learn with intellectually curious peers. Areas of study include STEM, Humanities, Environmental Science, Social Sciences, and the Liberal & Creative Arts. **More on our website**

SCHOOLS TODAY

Students learn how social movements have changed history

Students at one New Hampshire high school are learning about the changes brought about by social movements such as the fight for civil rights. The course also explores the role of social media in modern movements, especially in the "Never Again" campaign started by the student survivors of the Parkland, Fla., school shooting.

Do challenges in kindergarten predict future earnings?

A study finds that boys who had trouble paying attention in kindergarten tended to have lower salaries in their mid-30s than their peers without the challenges. Researchers say that, over time, lower earnings can increase the risk of stress and financial strain.
